This article applies to the Honda Accord (1990-2002). The transmission fluid is commonly ignored because many assume it will last forever. In reality, the fluid can break down with varying temperatures, become contaminated with water and dirt, or leak out slowly.

Honda Accord: How to Replace Manual Transmission Fluid ...

The transmission fluid in your 2004 Honda Accord should be changed about every 50,000 miles for optimum transmission performance. Allowing the old fluid to go far beyond this 50,000 mile-mark could create problems within the transmission system, as old transmission fluid becomes thick, sticky and corrosive. The worse the fluid gets, the more the various components within your transmission are bound to abrasively rub against one another.
