This resource is a concise guide to where free lab manuals and exercises are available on the web. title "A Compilation of Free Laboratory Activities for Astronomy 101 Courses" 2017 by user Andrew Fraknoi under license "Creative Commons Attribution-NonCommercial 4.0 International" Version History Cite this work

### A Compilation of Free Laboratory Activities for Astronomy ...

The labs in Astronomy 113 are best done in groups. For that reason, you will team up with at least one other lab member (but no more than 3) to go through the lab together. This is another good analogy to real world astronomical research: Most projects in astronomy require collaborations between people with different expertise.

### Astronomy 113 Laboratory Manual - UW-Madison Astronomy

The Nebraska Astronomy Applet Project provides online laboratories targeting the undergraduate introductory astronomy audience. Each lab consists of background materials and one or more simulators that students use as they work through a student guide. Pretests and posttests can be used to gauge student learning.

### NAAP Astronomy Labs

Finally, when used with display technology, like an interactive projector, virtual labs offer the entire class the chance to work together—something that is hard to do when they are crowded around a workbench. Here are some of our favorite virtual lab activities for the classroom. 1. Mystery Science
