### Torrent Toyota K Series Engine

The Toyota K series is an inline-four engine that was produced from 1966 through 2007. It is a two-valve pushrod engine design, a rarity for the company. It was originally built from the Toyota Kamigo plant in Toyota City factory in Japan. All K series are non-crossflow engines – the inlet and exhaust manifolds are on the same side. They have cast iron blocks and aluminium alloy heads, with a crankshaft supported by five main bearings. K series motors have both hydraulic tappet or ...
