This book makes it easy to design and build your own long or short range FPV autonomous drone. The book breaks down all the required and optional components into six easy to understand sub-systems; Airframe System, Radio Control / Autopilot System, Camera System, Power System, Ground Control Station, and the Drive Train System.

Drone University by John M. Glover - Goodreads

I've bought 3 books on DIY drone building and general knowledge and this is the best by a long shot. If you are considering building a drone, buy this book first. One thing this book has the other 2 popular books I bought is the designs for several different drones including planes and copters.
