Newspaper production process. Newspaper [circular reference] production is an act that starts from the gathering of news stories, articles, opinions, advertorials and advertisements to printing and folding of the hard copy. Usually the news items are printed onto newsprint. The whole production process can be divided into four parts: Content gathering, Pre-press, Press and Post -press.

Newspaper production process - Wikipedia

News design incorporates principles of graphic design and is taught as part of journalism training in schools and colleges. Overlapping and related terms include layout, makeup (formerly paste up) and pagination.. The era of modern newspapers begins in the mid-nineteenth century, with the Industrial Revolution, and increased capacities for printing and distribution.
