MSH Protos - Only Fine Helis

Most of the pilots started with Align models, this is why I say, the XLPower Protos 380 is between the traditional 450 and the 500 Align models in order to its size, but closer to 500 than to 450. It's exactly the same class as the Align 470. If you are a beginner and you don't understand the sizing, don't feel bad, this article can help you.
