You can find detailed information on how to configure SAP TM in the Implementation Guide (Customizing) in the system. Unless expressly stated otherwise in your agreements with SAP, this example information is not part of SAP product documentation and you may not infer any product documentation claims against SAP based on this information.

SAP Help Portal

You can integrate SAP TM with external systems by using enterprise services. For example, you can automatically create and confirm forwarding orders based on data received from your ordering parties. In SAP TM you can use SAP Visual Business to display a 3D load plan of your box truck (see Load Planning).
