When completed, four Scouts carry one Scout, seated and holding on, to a turning line and back. The process is repeated for a designated amount of times, carrying a different Scout each time.

Lashing Skill Activities | Troop Program Resources

In Scout Pioneering in the United States we most often see the square lashing started with a clove hitch. The clove hitch is tied on the vertical spar, just below where you want to join the crossing horizontal spar (see 1). Using a clove hitch to start this lashing allows for two things.
