TR6 Interior Panel Installation Tips: If you don't follow these directions, you will not be able to get the proper fit. 1) The one fit area that some people have had trouble with is the Trunk & Wheel Arch Panels and that's because they don't read and/or follow the directions. I even put it in BOLD RED in steps # 10, 11 & 12 below. The panel dimensions are based on them sitting on the thin carpet & underlayment

### proper fit. BOLD RED - tr6.danielsonfamily.org

Re: TR6 underfelt/carpet install tips You sorta have to do some of the panel stuff at the same time; specifically those little triangle pieces at the rear corners of the door opening and the strip that goes up the door. If I remember correctly, those are the only two panel pieces that need to be installed before the carpet.

Joe Curto has some great tips for the carbs. Here's something I can add. If you're using ethanol- blended fuel in your TR6, you'll likely experience hard starting when the engine is already hot. Many people misdiagnose this as vapor lock. The actual problem is fuel boiling out of the carbs and flooding the engine after it has been shut down.
